

Carl Lundholm

Student in system development

Work experience

Team Manager, Student Marketer

Akavia | March 2025 – present

I am responsible for leading and coordinating the student team, planning activities, and driving recruitment efforts. I have strengthened structure, efficiency, and student engagement through improved work processes and clearer communication.

Registered Real Estate Agent

HusmanHagberg Luleå | May 2023 – July 2024

Responsible for the entire sales process and long-term customer relationships. Awarded three Reco awards for customer satisfaction. Contributed to efficient sales flows through structured processes, clear communication, and professional customer service.

Education

System Developer

Malmö University | 2024 – 2027

Computer science education with a focus on Java, object-oriented programming, PostgreSQL, and complex system development. Emphasizes data structures, algorithms, backend, security, and project-based learning that trains practical system design and structured problem solving.

Projects

ChifferChat – Encrypted Chat App

- Java, JavaFX, Socket programming, RSA/AES encryption, multithreading
- Secure client-server chat application with end-to-end encryption.

SmartCalendar – Full-Stack Task & Calendar System

- Spring Boot, PostgreSQL, React (JS)
- Developed backend APIs and React frontend for a productivity application tailored to student workflows.

References are available upon request.

Systems developer student with experience in Java, databases, mobile development, and basic web development. Combines technical focus with strong communication, responsibility, and coordination skills from previous professional roles. Strives to contribute to stable, high-quality, and user-friendly systems.

Skills

Programming languages

Java, Kotlin, JavaScript, SQL

Technologies & Frameworks
